

Survey on Multi-Modal Transportation Issues

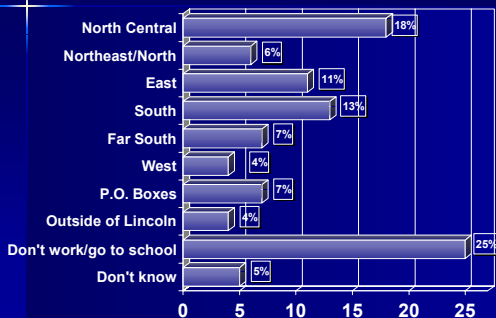

Dennis Nutter, President
Sigma Group

December 9, 2003

Vehicle and Transportation Characteristics Geographic Area: Residence All Respondents (n=503)

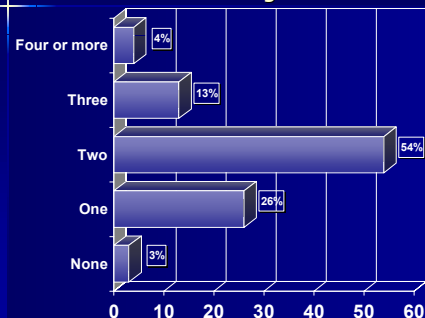

Vehicle and Transportation Characteristics Geographic Area: Work/School

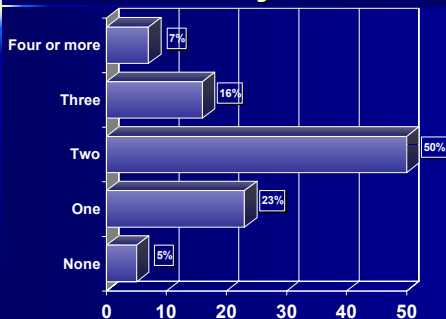

Vehicle and Transportation Characteristics Licensed Drivers in Household

Average = 1.9

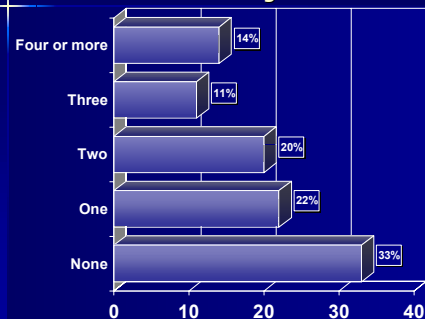

Vehicle and Transportation Characteristics Number of Vehicles in Household

Average = 2.0

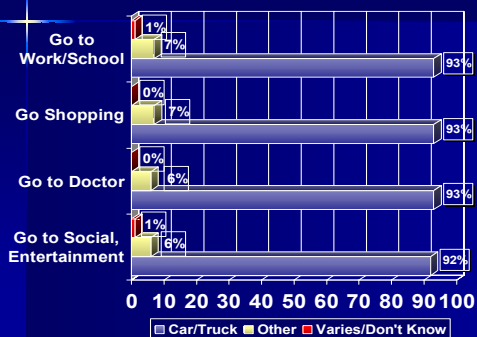

Vehicle and Transportation Characteristics Number of Bicycles in Household

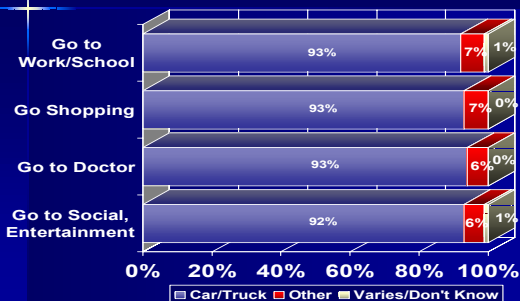

Average = 1.7

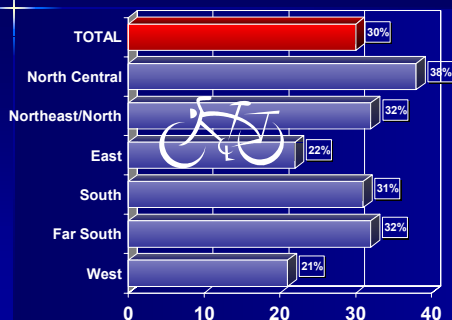

What form of transportation do you usually use to . . . ?

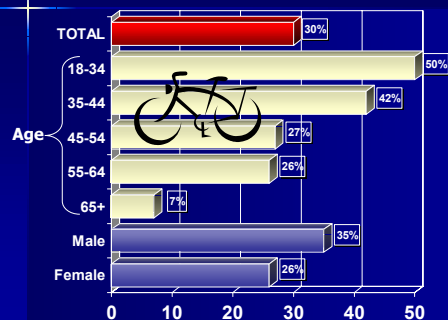

What form of transportation do you usually use to . . . ?

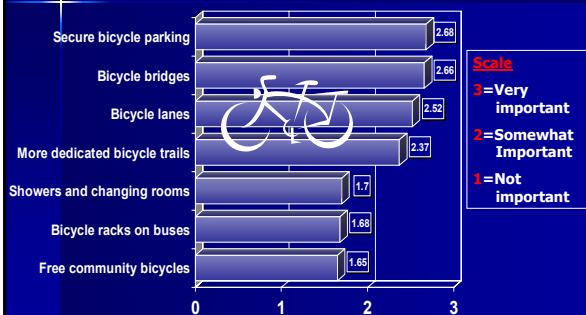

Would you ever consider riding a **BICYCLE**, regularly, to work, or school, or other destinations?" (Percent Responding "YES")

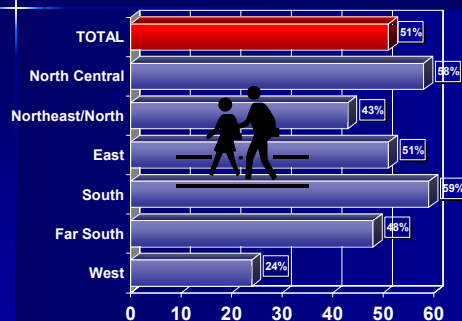

Would you ever consider riding a **BICYCLE**, regularly, to work, or school, or other destinations?" (Percent Responding "YES")

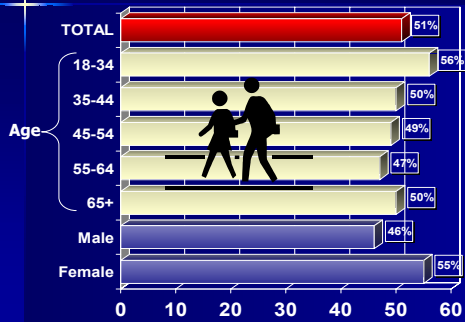

Importance of Selected Improvements in Decision to Ride **BICYCLE** for Regular Transportation

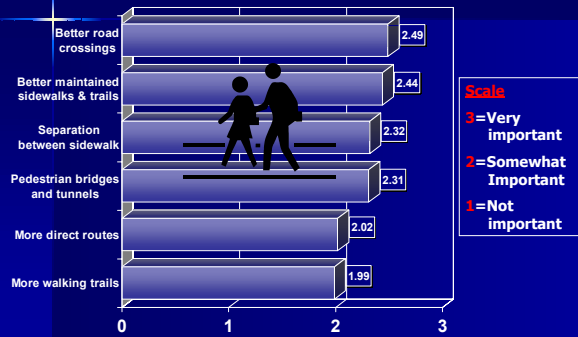

Would you ever consider **WALKING** to work, home, or school or other destinations? (Percent Responding "YES")

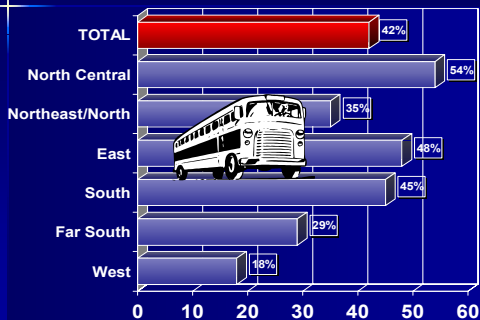

Would you ever consider **WALKING** to work, home, or school or other destinations? (Percent Responding "YES")

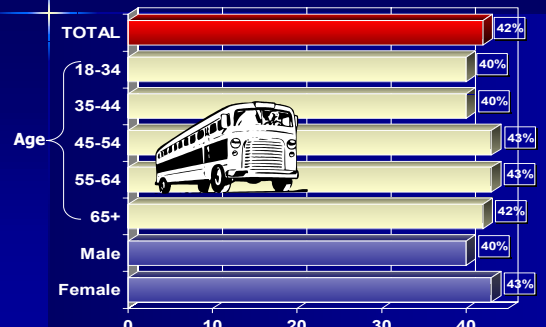

Importance of Selected Improvements in Decision to **WALK** for Regular Transportation

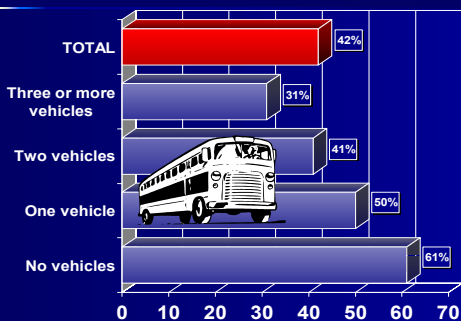

Would you ever consider riding the **BUS** to work, school, or to other destinations, on a regular basis? (Percent Responding "YES")

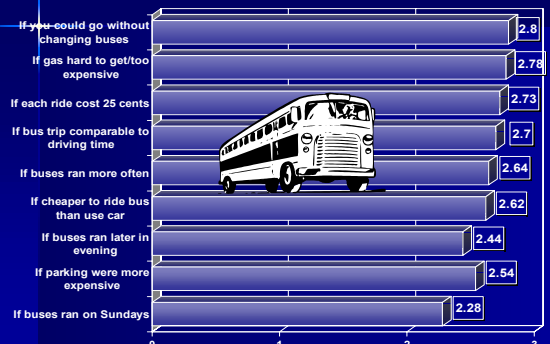

Would you ever consider riding the **BUS** to work, school, or to other destinations, on a regular basis? (Percent Responding "YES")

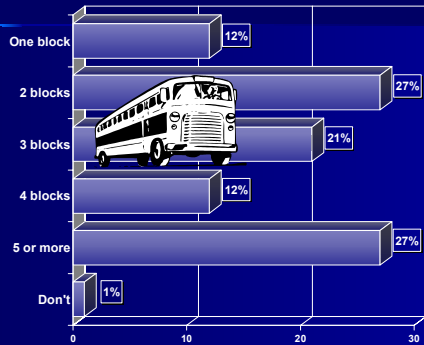

Would you ever consider riding the **BUS** to work, school, or to other destinations, on a regular basis? (Percent Responding "YES")

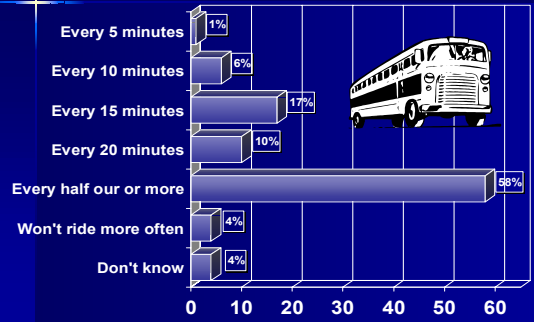

Impact of Selected Changes on Likelihood to Ride **BUS** for Regular Transportation (Of those that would consider riding bus (n=209))

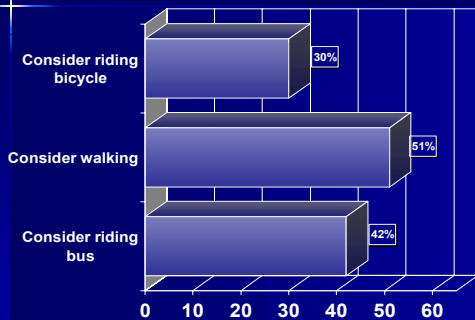

How far are you willing to walk to catch the **BUS**? (Percent Responding "YES")

How often do the buses need to run to cause you to ride the **BUS** more often? (Percent Responding "YES")

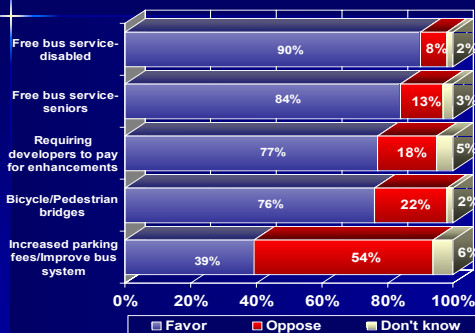

Summary of Likelihood to Consider Alternative Transport (Percent Responding "YES")

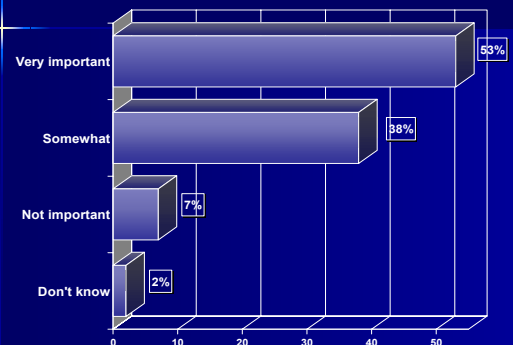

A commuter railroad service is being proposed between Lincoln and Omaha. If the fare were reasonable and shuttle bus connections at origin and departure points were convenient, would you consider using the service for any of these types of trips: How about for ... (Percent Responding "YES")

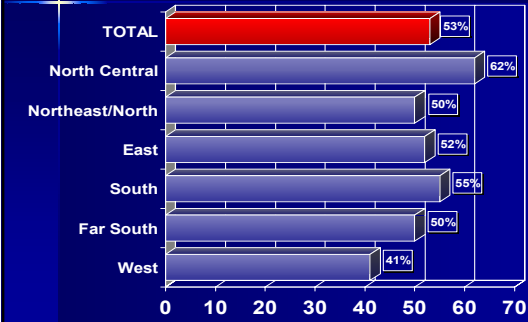

Favor and Opposition to Transportation Proposals

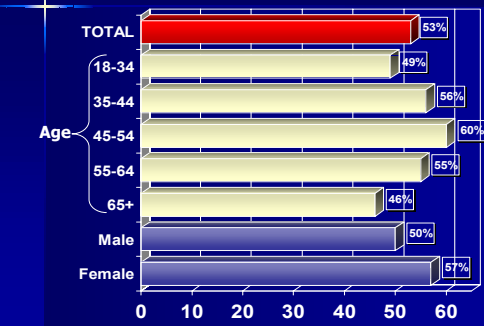

Importance of Development Supporting Alternative Transportation

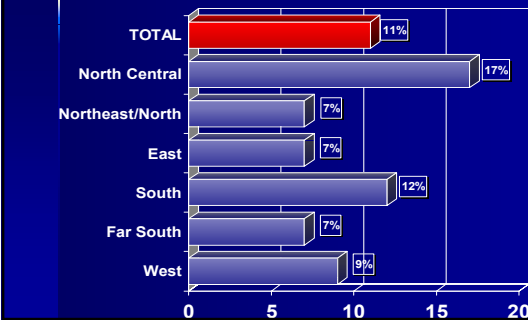

Importance of Development Supporting Alternative Transportation (Percent Responding "YES")

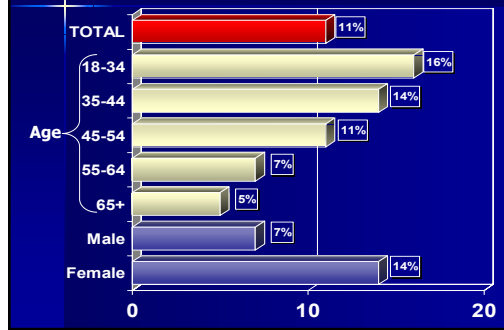

Importance of Development Supporting Alternative Transportation (Percent Responding "YES")

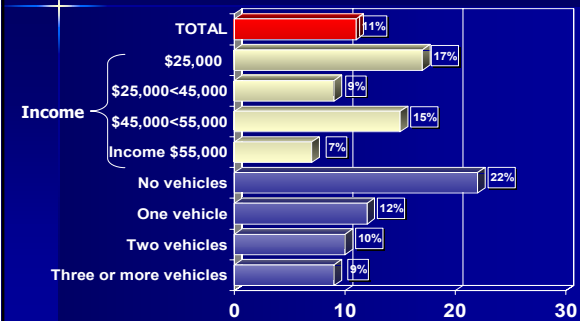

In the past six months, has anyone in your household been unable to go to work, school, the doctor, or do other activities because of a lack of transportation? (Percent Responding "YES")

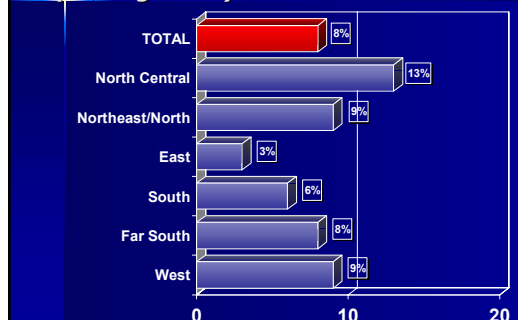

In the past six months, has anyone in your household been unable to go to work, school, the doctor, or do other activities because of a lack of transportation? (Percent Responding "YES")

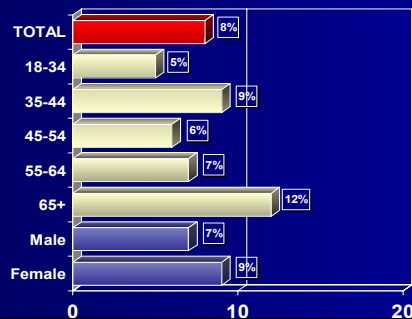

In the past six months, has anyone in your household been unable to go to work, school, the doctor, or do other activities because of a lack of transportation? (Percent Responding "YES")

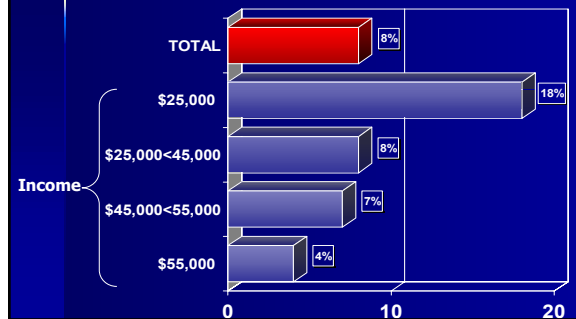

Does anyone in your household have a physical, mental, or other condition that limits their ability to travel without assistance? (Percent Responding "YES")

Does anyone in your household have a physical, mental, or other condition that limits their ability to travel without assistance? (Percent Responding "YES")

Does anyone in your household have a physical, mental, or other condition that limits their ability to travel without assistance? (Percent Responding "YES")
